

CHRIST
(DEEMED TO BE UNIVERSITY)
BANGALORE | DELHI NCR | PUNE

Name: Karishma Vaishal Bakre

Class: 2 MDS

Reg. No: 2648319

Subject: Full Stack Development

Lab 1: Create a basic webpage using HTML & CSS - for the domain chosen.

Warehouse System Management

1) Project Overview:
   The supplied project is a responsive warehouse-management frontend named Wareloom. The landing page presents warehouse operations through inventory, orders, workflow, operational metrics, dashboard previews, solutions and a call-to-action. Separate authentication pages provide Login and Create Account interfaces.

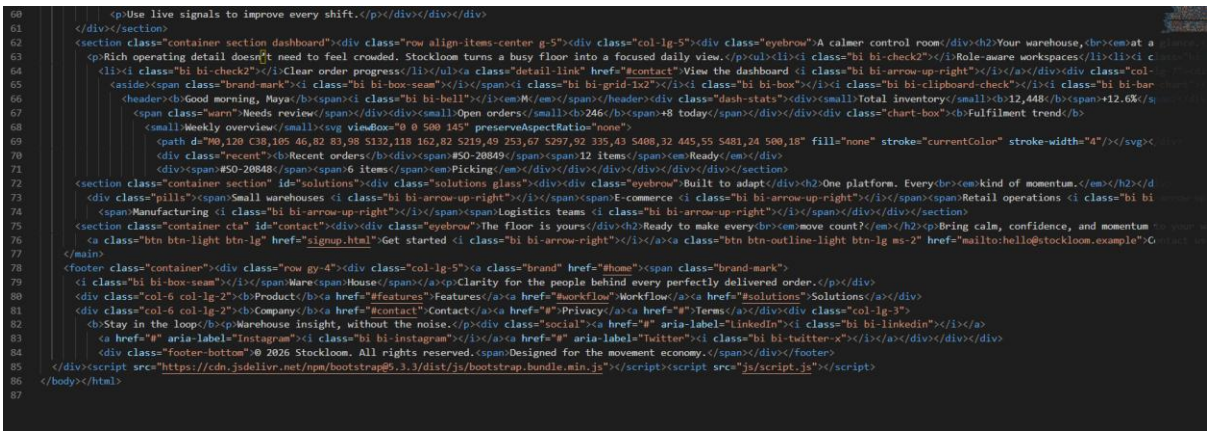

2) Technologies Used:
   HTML5: Semantic page structure for index.html, login.html and signup.html.
   CSS: Custom layout, responsive behavior, gradients, glassmorphism, cards, dashboard visuals and animations.
   Bootstrap 5.3.3 Bootstrap Icons: Responsive grid, navbar, utility classes and buttons on the landing page. Icons for boxes, navigation, charts, orders, users, actions and status indicators.

3) Source Code

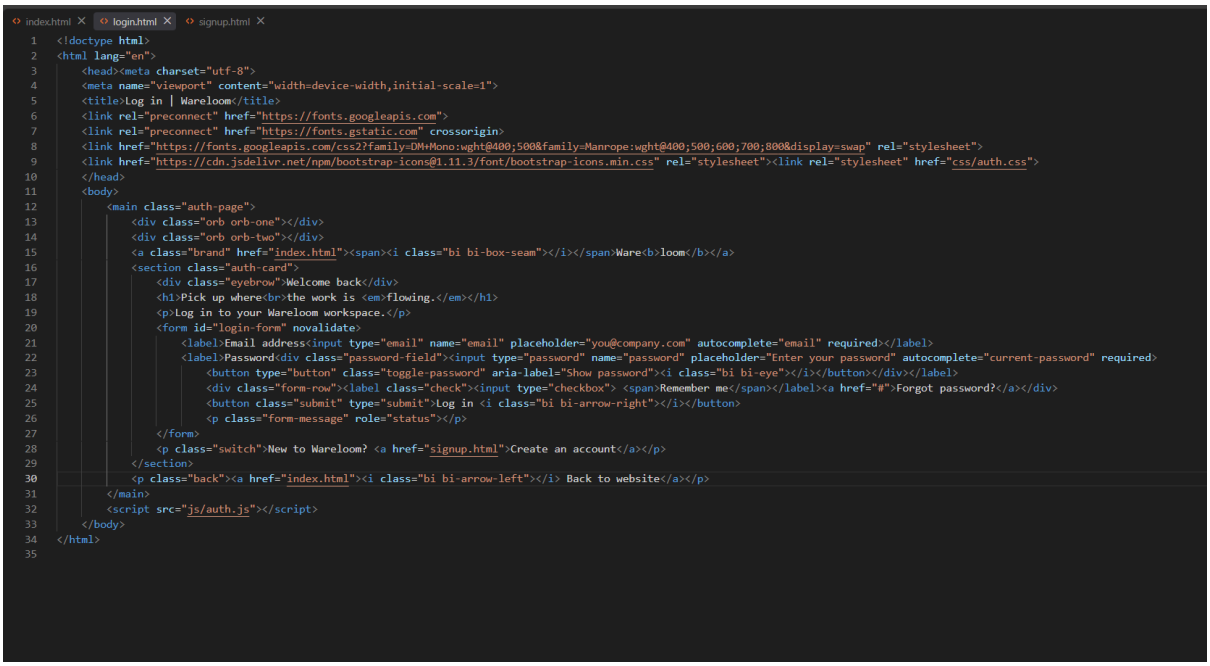

Landing Page(index.html):

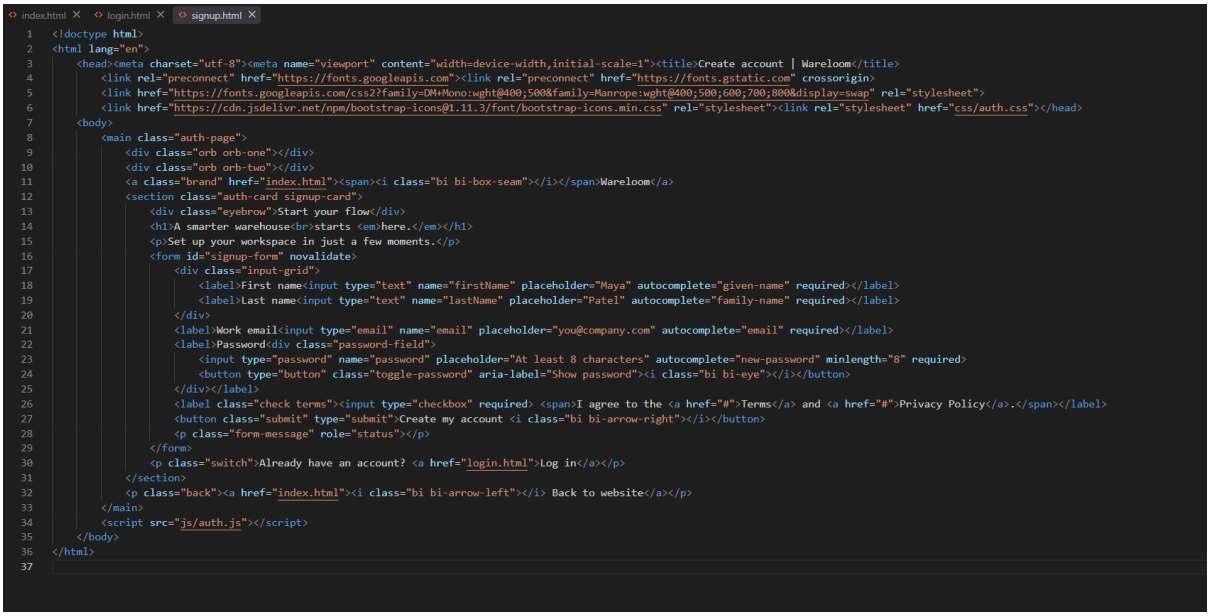

Login page(login.html)

```
<!doctype html>
<html lang="en">
    <head><meta charset="utf-8">
    <meta name="viewport" content="width=device-width,initial-scale=1">

operational visibility
A SINGLE SOURCE OF MOVEMENT
Less searching.
More shipping.
Give every warehouse role exactly what they need to keep product, people, and promises moving together.
Inventory intelligence
See every SKU, bin, and stock movement in one calm, searchable workspace.
Discover capability
Multi-site control
Move between warehouses with live visibility of capacity and team activity.
Discover capability
Order orchestration
Prioritize, pick, pack, and dispatch orders without losing the thread.
Discover capability
Live stock signals
Catch replenishment risks before they become costly customer conversations.
Discover capability
Partner operations
Keep suppliers, customers, and purchasing decisions close to the work.
Discover capability
Clarity in reports
Turn warehouse activity into simple, useful decisions for your team.
Discover capability
ONE CONNECTED FLOW
From arrival to afterglow.
Everything has a place—and every handoff is visible.

01

Receive goods

Scan arrivals and reconcile purchase orders.

02

Place with purpose

Guide every item to its optimal home.

03

Fulfil with confidence

Direct teams from pick list to doorstep.

04

Learn continuously

Use live signals to improve every shift.

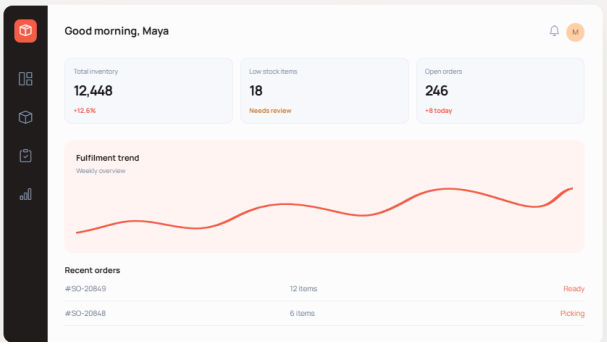

A CALMER CONTROL ROOM

Your warehouse, *at a glance.*

Rich operating detail doesn't need to feel crowded. Stockloom turns a busy floor into a focused daily view.

- Role-aware workspaces
- Proactive low-stock signals
- Clear order progress
